The Daily Gazetteer. Nº 5.

WEDNESDAY, JUNE 27, 1744.

Extract of a Letter from the Hague, *dated* June 19, 1744.

THE Governor of Menin has 'juſtified his Conduct to the 'States; he obtain'd all the 'Honours of War, having four 'Pieces of Cannon, two Mor-'tars, and four cover'd Wag-'gons allow'd him. The ſole 'Reaſon he ſurrender'd, was 'his Gariſon's being too ſmall 'for the Place; ſo that they were actually fatigued to ſuch a Degree, that they were not in a Condition to do Duty. We are not ſo clear as to the Affair of Ypres; there was a Redoubt ſurrender'd at the firſt Attak of the Place, where there were People enough to have defended it, and Cannon for their Defence; whereas the Troops of the Marſhal de Saxe, who attack'd them, had none. This will be enquired into, and if the Officer who commanded them has been guilty of any Neglect of Duty, he will be ſurely puniſhed.

'According to the laſt Advices from the French Camp, both the Marſhal de Saxe and the Duke de Harcourt are in a Condition to join the Royal Camp; and the grand Army will then conſiſt of between 140 and 150,000 Men. It is generally thought, that the Siege of Tournay will follow that of Ypres, the French King having ſhewn a particular Inclination to make himſelf Maſter of that Place; but as the Situation is ſtrong, the Fortifications regular, the Gariſon numerous, and the Place exceedingly well provided, we very much doubt whether it can be taken ſoon enough, to allow Time for the Siege of Mons this Campaign; with which we are aſſured, his moſt Chriſtian Majeſty intended to have cloſ'd his Conqueſts.

'The Reports that have been ſpread by French Emiſſaries, in relation to Diſputes among the Generals of the Allies, is altogether without Foundation. The Confederate Army in the Camp near Oudenard, actually conſiſts of 47,000 effective Men; and the French are ſo far from having any Stomach to attack them, that the very beſt Troops in their Army have been pick'd out for the Marſhal de Saxe, who is encamp'd on the Scheld, over-againſt them, purely to prevent any Interruption that might be otherwiſe given in the Sieges which the French Army are to undertake. It is thought the Count de Podevilles will ſhortly leave this Place, under Colour of minding his private Affairs; but we are apprehenſive, that it is from other and more important Reaſons, which gives us a good deal of Concern; ſince it is certain, that nothing but the unforeſeen Death of the Prince of Eaſt-Friezland, could have hinder'd the States from declaring themſelves before this Time.'

BUGGS Destroyed.

WHereas I have for many Years, with Success, made it my Business to destroy those nauseous Vermin call'd BUGGS, out of Hospitals, Palaces and other smaller Buildings, at a reasonable Price, the same being done with a Preparative no way offensive, without the least Damage either to Bed, Bedding, or Furniture, be the same ever so good; and after I have destroy'd them, if any should happen the following Year to be brought in by Peoples Cloaths from other Houses, which may happen in new Furniture, rather than to those that I have cur'd and cleansed, which is owing to the Quality and Nature of what is used, then, and in such Case, I promise to cure them gratis, and those that are desirous to agree for any Number of Years, may, at a small yearly Sum, depend on having their Furniture kept entirely clean from them. Therefore, those that are pester'd with them, will be waited upon, by sending a Line for that Purpose to me JOHN WILLIAMS, at Janeway's Coffee-House, near the Royal Exchange, or at the Rainbow in Lancaster-Court, Charing-Cross, or at my own House in Driver's Court, over against the George Alehouse, in Old-street.

N. B. *The late Learned Dr.* CHEYNE, *in his Last Piece, entitled* The Natural Method of curing the Diseases of the Body, &c. *prefers* Eaton's Styptick *to Hickman's and other Stypticks, and speaks of it as follows:* — 'Every one 'knows the agglutinating Quality of sweet Blood, and 'apprehend it is to this, that Eaton's Styptick owes its 'mild, soldering Efficacy. — It is more mild, siccative 'and soft, than the mildest *Steel Preparation*, and more 'to patch a Hole, or glew up a Rupture, or to give Ease 'to the acrid and inflam'd flowing Blood of the Piles. So 'says, he is confirmed in this by a Physician of great Skill 'and Candor, who has great Opportunities of dealing in 'Cases, by his *Practice in Midwifery*. See p. 182.'
